ABOUT THE SAN ANTONIO GUNSLINGERS

Picking up the legacy of the popular USFL team from the 80s, the Gunslingers were founded in 2020 as an expansion team in the American Arena League. After a successful first season, the team joined the growing National Arena League in the fall of 2021. The team changed ownership partway through the 2022 season but was still voted the NAL Franchise of the Year, and several of our players received awards for their skills!

We're excited to see what our 2023 season brings! For more info visit SanAntonioGunslingers.com

ABOUT THE NATIONAL ARENA LEAGUE

Founded in 2016, the National Arena League is now the premier leader in the sport of arena football. The NAL has rapidly grown throughout the United States, and has stretched coast to coast with seven teams playing throughout the nation.

Our Mission Statement is *"To consistently provide reasonably priced family entertainment by vetted Arena/Indoor football teams, and to do so with honor and integrity towards our sponsors, fans, and supporters in the communities in which we serve."*

Check out the NAL website at NationalArenaLeague.com

HOW IS ARENA FOOTBALL DIFFERENT?

Arena football as played in the National Arena League (NAL) is different from the outdoor game in many ways.

Our teams have a 21-man roster, compared to a 53-man roster in outdoor football. There are only eight men on the field, and five of those players play both offense and defense.

Our field is half the size of the outdoor field, and a little more than half as wide because there are no sidelines. A four foot padded wall called the "dasher board" surrounds the field instead. A player is down if they are pushed into the wall or hold the ball over the wall. This wall allows fans to get an up-close view of the game, and players can and do go over the wall. When this happens, we do request you give the players back, but you can keep the ball!

Scoring is similar to the outdoor game, but there are more ways to score. On a kickoff, a kicker who sends the ball through the uprights on the opposite end scores a "Deuce" for two points. But *if the kicker misses the net to the left or right, the receiving team is awarded a point instead.* A kick that rebounds off the net is live. If a kickoff returner is tackled in the end zone, the kicking team is awarded a point called a "Rouge" or "Uno." Speaking of the kicking game, the goal posts are half as wide as in the outdoor game, making extra points a lot harder. A team may also "go for two."

All of this is designed to make NAL games high-scoring, action-packed, and exciting to watch. We hope you will agree!

NAL Fans' Bill of Rights

We, the players, coaches, officials, staff and owners of the National Arena League are thankful to the Fans that we serve; we appreciate their support, and dedicate ourselves collectively to providing them with the greatest sports in the world.

We believe that every Fan is entitled to a wholesome environment, free of violence or profane gestures and actions that could interfere with a first-class entertainment experience.

We believe that every Fan deserves our very best effort on a consistent basis, on every play on the field, every action in the stands, every call to our office, and in our involvement in our community.

We believe that every Fan is entitled to a total entertainment experience at an affordable price for all members of the family from the time they arrive at the arena to the time they depart.

We believe that every Fan should receive the very best in fair and competitive football, entertainment, merchandise, food, and beverage for their money.

We will offer Fans the opportunity to interact with and have access to players and coaches for autographs and conversation at the end of every game.

We believe that Fans are entitled to fast, accurate, and complete information about our players, coaches, league, games, and performance.

We believe that Fans expect the National Arena League to be comprised of gentlemen and ladies who are examples and role models for youth, free of physical violence, drugs, alcohol, and gambling abuse.

We believe that Fans expect us to honor our country before each game.

We encourage teams to pray together with Fans before each game begins.

We expect NAL teams to be involved in our communities and to make contributions for a better, safer, and more positive place to live.

We believe that Fans should know that we are committed to serve and not to be served, to give and not to just take, and to inspire and encourage people to higher levels of personal and professional achievement.

We have AC Systems as low as \$72 per month!

JON WAYNE Flex

Jon Wayne Flex AC systems offer flexible comfort solutions that a traditional AC can't, without compromising your comfort.

Why Choose a Flex AC System?

Space Saving Design

With an outdoor unit less than a third of the size of a traditional AC, the Flex system is perfect for those with limited space (like zero lot lines) or unique installation needs like wall mounting. Great for safety and regaining backyard space!

Whisper Quiet Operation

The Flex is so extremely quiet during operation that you won't even know it's "kicking in" due to its unique swing compressor with fewer moving parts. The results are low vibrations, low sound levels, and higher durability.

Energy Efficiency

The Flex system features a variable speed fan that uses less energy but can still ramp up to meet your needs even on the hottest Texas days. This is paired with a motor that is up to 40% more efficient than typical AC motors.

Build Quality & Warranty

Our Flex systems are built for quality and durability to handle extreme heat and humidity. Plus, they are backed by a 12-year parts & labor warranty and a 12-year unit replacement warranty, all serviced directly by Jon Wayne!

Intelligent System Controls

All Flex systems come with an intelligent, app-enabled, 2-way system control that makes full use of the system's wide operating range, precision, efficiency, adaptability, and capability to run multiple zones.

Air Quality & Humidity Control

By continuously running at low, energy-conserving levels, the Flex system is also constantly filtering the air in your home, ensuring optimal quality and removing the maximum amount of moisture from the air.

SHARKS' NOVA TO KAM TOO MUCH FOR GUNSLINGERS

The Jacksonville Sharks scored on nine of their ten possessions and rolled to a memorable win 70-43 over the previously undefeated San Antonio Gunslingers. Jacksonville remains undefeated on the road, improving to 4-2 overall while San Antonio falls to 5-1 with the loss.

Things went the Sharks' way from the very beginning as kicker Mark Orozco opened the game with the first of three deuces. The Sharks never looked back as they scored twenty-one unanswered points before turning the ball over on downs once in the second quarter. That would be their only offensive failure in the entire game as they went on to score six straight touchdowns on their remaining possessions. The Sharks' newly acquired quarterback Sam Castronova completed a blistering eighteen of twenty-four passes for six touchdowns and rushed for two more despite being sacked three times.

Five of those touchdowns fell into the hands of Kamrin Solomon, who led the team with twelve receptions for 120 yards to remain the number one receiver in the league. Tamorrion Terry collected the sixth Castronova strike, and Marquell Wade rushed for one touchdown. Marc Orozco was brilliant in his return to the National Arena League for Jacksonville, scoring fourteen points on three deuces and going eight for nine on conversions. Coach Jason Gibson said of the Sharks' performance, "We just needed to win, to prove that what we do in practice and by ourselves

is validated. Our defense was outstanding today, especially up front."

San Antonio's Coach Fred Shaw summarized, "We came out lackadaisical, putting too much energy into being at home and not enough into beating our opponent. We learned tonight that in this league, anyone can get beaten by anyone. We will get better and get back to being one and oh (1-0)." Quarterback Arvell Nelson completed a respectable twenty-two of thirty-seven passes, but doomed the Gunslingers by throwing a season high three interceptions to only three touchdowns. Phillip Barnett, Pierre Turner, and Joshua Reese each caught one touchdown. Nelson also rushed for three touchdowns and remains atop the league with fourteen rushing touchdowns total. Kali Rashaad returned five kickoffs for 143 yards to remain number one among NAL kickoff returners with 554 yards total.

San Antonio continues their home stand as they get ready for the (1-4) Orlando Predators next Sunday, June 4th. Jacksonville heads next to Odessa to face the (2-4) West Texas Warbirds.

ULTIMATE Cooling Tune Up

an \$800 value
ONLY \$179!

35+ Point Inspection:

We'll inspect your system from top to bottom, inside and out. We check for proper voltage, secure wiring connections, check the balance of your blower fan, and more! This detailed inspection can catch many small problems before they become expensive problems.

Outdoor Coil Cleaning:

We'll thoroughly clean the coil of your outdoor unit to ensure your system is working at maximum efficiency. Dirt and debris block airflow, retain heat, and cause your system to struggle, reducing the lifespan of your unit.

Drain Line Flush:

We'll vigorously clean and flush the drain line of your indoor unit, so you never have to worry about a wet mess. A clogged drain line can cause a multitude of issues, from poor system performance to water damage and mold growth.

Refrigerant Level Check:

We'll check your refrigerant levels and add the **first pound of Freon completely FREE!** While some older AC units tend to lose a bit of Freon with age, low Freon can also be a sign of a larger leak or damaged component. Low Freon can prevent your system from cooling and cause damage to your compressor.

Exclusive Compressor Saver:

We'll also install our Exclusive Compressor Saver! Our compressor saver reduces start time and protects your compressor and other vital components from wear and tear, extending the lifespan of your AC system.
